

XXVTH EUROPEAN DERMOCOSMETOLOGY DAYS

3rd and 4th February 2011

Centre de Congrès - LYON

CELL ACTIVATION AND STEM CELLS IN DERMOCOSMETOLOGY

Partners

Société Française de Cosmétologie

Fédération des Entreprises de la BEauté

Liste of conferences

CELL ACTIVATION AND STEM CELLS IN DERMOCOSMETOLOGY

Updated in real time on our website
This list is not exhaustive and subject to change
The conferences are not classified by subject

The skin: a major reservoir of stem cells

Michèle Martin - Laboratoire de Génomique et Radiobiologie de la Kératinopoïèse

Pluripotent stem cell derivatives for full reconstruction of melanized pluristratified epidermis

Christine BALDESCHI – INSERM/UEVE 861, I-STEM

Cell adhesion and stem cells

Pr Dominique LE GUELLEC – IBCP (Institut de Biologie et Chimie des Protéines)

The umbilical cord: a source of human stem cells for tissue engineering

Nico FORRAZ and Colin P. MCGUCKIN

Topic: Characterization of inter-follicular stem cells (keratinocyte stem cells of the basal membrane)

Eric PERRIER – LVMH Parfums et Cosmétiques

Cutaneous Stem Cells: Industrial Applications

Epithelial stem cells in skin and hair : industrial applications

Michelle RATHMAN-JOSSERAND – L'Oréal Recherche Avancée

Adipose stem/progenitor cells: phenotypes and functions

Coralie SENGENES – INSERM U 858 - I2MR

Model hypodermis reconstructed human economic and reproducible: preparation and functionality

Charlotte LEQUEUX – Laboratoire de Substituts Cutanés

Adipose tissue and stem cells: applications and perspectives in plastic surgery and aesthetic

Ali MOJALLAL – CHU Lyon

Aging stem cells in the dermis and physiological consequences

Marilyn PARIS – L'Oréal Recherche Avancée

Stem cells & skin aging: cosmetic approach and development of natural active molecules

David BOUDIER - Silab

Plant stem cells: for which cosmetic applications?

Elodie MAUGER – Mibelle Biochemistry

Regulation of the polyphenols biosynthesis of Vitis Vinifera cell culture and study of their pharmacological properties

Rachid ANANE - Naolys

Stem cells samphire, in vitro activity on skin homeostasis, in vivo efficacy in anti-aging

Christiane MONTASTIER – Helena Rubinstein

Plant Meristem Cells In Cosmetics As Highly Concentrated Actives Respecting Biodiversity

Roberto DAL TOSO – Istituto di Ricerche Biotecnologiche

Complementary *in vitro* models to investigate the effect of different types of stresses on extracted epidermal stem cells

Sandy DUMONT - Seppic

Using adult stem cells of human origin to evaluate the effects of natural ingredients referred dermocosmetic

Pierre-Yves Morvan - Codif International

Fibroblast metabolic activation accounts for decarboxycarnosine tensile properties in dermal equivalent

Mathilde FRECHET – Exsymol

Active molecular design for the activation of cellular metabolism in the skin

Fabrice LEFEVRE - LibraGen

PRP (platelet rich plasma): example of cell activation in aesthetic medicine

Anne POUILLOT - Alchimie Forever
