

## EUROPEAN DERMOCOSMETOLOGY DAYS

The European Dermocosmetology Centre has been organizing the **European Dermocosmetology Days** every second year since 1966. This scientific Congress gathers all prestigious names from the national and international cosmetic industry. It is dedicated to both executives from the cosmetic sector (R&D, Scientific, Commercial and Marketing Directors) and researchers.

The topic of this Congress is selected according to events, currently occurring within the sector. Cosmetics, and ingredients in particular, have been subject to much controversy for a few years, notably regarding their possible toxicity and their role in some pathologies. Industrials from « traditional » and « bio » cosmetics, together with the Association of Consumers Que Choisir participate in the debate « **Which Chemistry for cosmetics** » : from ingredients, regulations, marketing, packaging to testing, all these topics will be raised.

This Congress will be held from **January 17th to 19th 2007** at the Palais des Congrès in Lyon. This is an ideal location for an international Congress (simultaneous translation French-English).

The French Society of Cosmetology has supported the EDD right from the start. The Grand Lyon and the Rhône-Alpes region are politically involved in the dermocosmetology sector and also participate in this event. Lyon and its region have, for long, been carrying out researches and developing innovative products.

Meetings will continue in a more relaxed atmosphere, during the gala evening organized at Abbaye de Collonges, manor house on the Saône River of Paul BOCUSE, prestigious name of the Lyon cuisine.
